Art's breath permeates domestic spheres,
CSA preserves time-honored veneers.
Chiseled poetry in spatial measure,
Sunbeams kiss contours with liquid pleasure.

A life's brief span,
but dawns and dusks in view;
What matters most,
love's feast and bread made true.
Life's humble quest,
warm hearths where thoughts take flight;
Its purest prayer, safe harbor's tranquil light.
CSA's art whispers strength through silent grace,
Guiding us home to life's primordial embrace.

Man is born to seek the light,
Sunlit days ever shining bright.
A tender beam, soft as a sigh,
Brushing shadows from life's sky.
Through CSA's lens, nature's song
Makes dwellings where light flows along -
A soul's refuge in twilight's hue,
Where earth and ether commune true.

A true sanctuary isn't built with grandeur,
but with permission -
to shed societal costumes,
to abandon performative pleasantries,
to breathe freely in one's natural state.
CSA's design philosophy materializes comfort,
Here, time crystallizes into elegance,
each weathered surface a testament to life's
quiet unfolding.

Hollowcore Board —Bridge-Channel Structural Board

Property	Value	Standard/Certification
Size	900*2090mm, 1180*2090mm Or As Customers' Request	
Density	300–700 kg/m3	ENF/E0/E1/E2/MR/WBP/Phenolic glue
Thickness Options	24–40mm	DIN 4102 fire rating
Noise reduction	35 decibels	DIN 4109 standard
Compressive strength	10-30 megapascals	
Impact strength	10-30 kilojoules per square meter	
Material	Poplar, pine, combi or customized	

- Lightweight & Dimensional Stability

- Soundproofing | Thermal Insulation

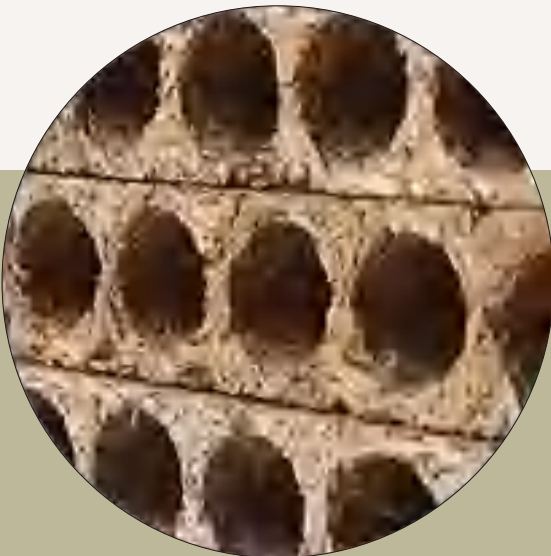

- Smooth and flat, with smooth texture

Select unprocessed logs for cutting into shavings.

The wood shavings are superimposed in the same direction and then extruded into shape

High-quality bridge hole mechanical plates exhibit minimal thickness tolerance.

Nature never races with Time's breath,
Yet lets eternity crystallize in CSA's depth.
